EDITOR'S NOTES

Deadlines for copy for various planned issues of the Hoosier Surveyor are as follows:

- Winter - February 1
- Spring - May 1
- Summer - August 1
- Fall - November 1.

The Hoosier Surveyor is published quarterly by the Indiana Society of Professional Land Surveyors to inform land surveyors and related professions, government officials, educational institutions, libraries, contractors, suppliers and associated businesses and industries about land surveying affairs.

Articles and columns appearing in this publication do not necessarily reflect the viewpoints of ISPLS or the Hoosier Surveyor staff, but are published as a service to its members, the general public and for the betterment of the surveying profession. No responsibility is assumed for errors, misquotes or deletions as to its contents.

PRESIDENT'S MESSAGE

Bernie Guerrettaz PS, 2015 ISPLS President

Fellow Members of ISPLS:

June 2015 appears beginning as one of the best we as a profession in Indiana have had for several years. Job opportunity positions on the ISPLS Job Board are up and indications through speaking with colleagues over the past 8 months or so indicate land surveyors in general are sitting on quite a bit of backlog. Cheers to a little relief and keep up the good work. Maybe this will be a good time to take an opportunity to step out and continue to educate other professionals in your community of the necessity of our professional services. Also don't forget to read up on **HB 1050** with respect to land surveyor's statute of repose and notification requirements to bring the benefit of the Bill to you individually.

As June arrives ISPLS has been able to move into our new normal. As you know the Board of Directors has entered into a contract with Banning Engineering, P.C. to provide administrative management services for ISPLS potentially to June 30, 2016. Jason Coyle will remain our Executive Director as an employee of Banning Engineering and his assistant Ms. Andrea Wade will be working directly with Jason to address your general email, telephone and membership queries, among other tasks, on a daily basis. Welcome Home Jason, (albeit you never really left)! And Welcome Aboard Andrea! In particular Andrea has worked with Banning Engineering on a part-time basis and now will concentrate efforts on ISPLS. Kudos to Andrea as she is climbing that learning curve very quickly and has hit the ground running.

Note to members, our first Board of Directors meeting at our new headquarters located at **853 Columbia Road, #101, Plainfield, IN 46168** will be on June 27, 2015 at 9:00 am. In the meantime Board Members are planning on moving those items out of the current office that do not sell in the online auction Jason informed you of late last week. Speaking of which, please look back through your email dated May 28, 2015. Jason and Andrea have compiled an outstanding list of furniture and equipment for sale as well as items out of our library for free. All of which are in outstanding condition. Another item that is notable to share is an effort by Chuck Coyle of the Indiana Professional Land Surveyors Foundation to formulate agreements with individual chapters to seed endowments to the Foundation. Queries to this effect should be directed to Chuck via email at ccoyle@forceco.com. I also request you seek out the meeting times of your respective Chapter Meetings. Call the ISPLS office at 317-888-4400 and ask Andrea or simply send an email to her at admin@ispls.org. She will be happy to assist you with your questions on dates, locations and who within YOUR Chapter to contact.

Finally, don't forget to renew your memberships. Work on the convention which spans January 13 thru January 15, 2015 at the Marriott on 21st Street in Indianapolis is underway and it will be here before you know it. The program is coming together and your renewals will keep you abreast of notices, emails, and items of interest having to do with the Convention and other events within the society. Membership, among other things, provides cost discounts on the convention, access to legislative lobbyists and legislative safeguards, and access to legislative outreach on a national level via NSPS. Without ISPLS and the work of individuals within the organization such as Jason Copperwaite, PS, House Bill 1050 would likely not have been realized.

So with that, I leave you with one last thought: "Stop Look and Listen". Lessons of Operation Safety in the Railroad Industry ring true in our profession too. Pay attention and be safe.

Carlson Software Tip of the Day...

That CAD Girl

Wiped Out Property Corner Symbols

Problem:

Problem: Lines or polylines of a boundary show up inside your open property corner symbols. See image 1 for an example:

The additional problem is that, if you trim the lines inside the symbols to make it look cleaner, you're actually modifying the length of property lines so the distances from corner-to-corner are no longer accurate.

Here's an alternative: You can download a modified set of Carlson's point symbols that include a "wipeout" entity that hides the lines behind/underneath the open symbols instead of trimming them and changing the length of the lines. Using the new set of symbols, the same property lines and symbols look like those in image 2 (notice that the distances of linework are unchanged):

ISPLS BOARD OF DIRECTORS MEETING HIGHLIGHTS

By Andrea Wade, ISPLS Administrative Assistant

March 14, 2015

The ISPLS Board of Directors met on Saturday, March 14, 2015 at ISPLS Headquarters, Indianapolis, Indiana. President Bernie Guerrettaz called the meeting to order at 8:59 am EST. All board members were in attendance with the exception of Perry Cloyd. Others in attendance were Marc Cady, Dave Croft, Doug Herendeen, and Randy Miller.

Don West read the ISPLS Mission Statement and Rich Hudson read the Vision Statement. Both statements were also printed in the agenda. Adjustments had been made to the meeting agenda. HB 1163, dealing with land splits, had been removed. Jason Coyle submitted a letter of resignation as Executive Director. A motion was made by Todd Bauer and seconded by Jim Tibbett to accept the agenda as adjusted. The motion passed by a voice vote.

The minutes from the January 14, 2015 Board meeting were reviewed and accepted. A motion was made by Don West and seconded by Don Williams to accept the Board of Directors' meeting minutes as amended. The motion passed by a voice vote. The minutes from the January 14, 2015 Board of Directors Reorganization meeting were also reviewed and accepted. A motion was made by Eric Banschbach and seconded by Don Williams to accept the minutes as amended to clarify the financial report. The motion passed by a voice vote.

The Treasurer's Reports were reviewed and narrated by Dennis Grumpp. The written financial reports dated February 28, 2015 were presented, and assets totaled \$280,017.83. Dennis also covered the income and expense report, *(Continued on page 7)*

investment report, budget, and the profit and loss report. There was board discussion regarding other state societies collecting NSPS dues from Indiana residents, the water bill, credit card fees, and the budget spreadsheet. A motion to accept the Financial Reports was made by Don Williams and seconded by Todd Bauer. The motion passed by a voice vote.

The Board heard and reviewed the Executive Director's report. Executive Director Coyle presented a written report and discussed highlights with the board. Attention was drawn to the membership increase from last year. Dues had been paid to the chapters and NSPS, and tax filings have been made for the chapters. Our website created through YourMembership is being updated, and the chapter pages need some editing and updating. There are 24 job openings on the website. There was not a Central Indiana Damage Council meeting (Indiana 811), the next meeting will be held in April. The CST exam, LTAP Stormwater conference and Board of Registration were noted, and the PS exam review had six signed up for the next weekend. The Central Indiana Chapter is planning for continuing education before this year's golf outing. The Hoosier Surveyor should be out in the next week or two weeks. The "JCC – Job Creation Committee" meeting minutes have numerous errors, and a letter will be sent to them. The JCC had concerns about the required work experience and education. ILTA is sending a letter of support for continuing registration requirements for surveyors and Jason is working with NSPS, ALTA and others to get their support. HB 1030, Registry of Certified Professions was discussed. Jason has submitted a letter of resignation, effective May 1st. There were no Board motions.

Doug Herendeen and Jason Coyle gave a report concerning the 2015 Annual Convention. ISPLS made a profit of \$37,736.95, and the chapters had a profit of \$6,659.46. The initial plan for the 2016 convention was presented.

ISPLS Committee reports: Committee Chairs and charges were presented for consideration. Ron Wharry and Brent Friend are now on the Membership Committee/New Member reviews. Ryan Swingley and Todd Bauer are now part of the Public Information and Marketing Committee, which had a brief discussion about marketing. Geodetic Control has gained Eric Banschbach and Matt Badger.

Jason Coyle, the Board of Registration Liaison, was not present at the last meeting, but 18 applications were approved. Also, a continuing education audit was performed for 1% of registrants. Dave Gaston, the County Surveyors Liaison gave a brief report on Road School, and is planning to communicate with Indiana Counties. NSPS Director Tony Gregory reported the spring meeting will be in April. Eric Banschbach with the Geodetic Control Workgroup stated "Height Mod" observations have been completed in the Vincennes District. The Legislative Committee provided that HB 1050 Statute of Repose is in the Senate subcommittee, HB 1303 Certified Professions does not apply to surveying, SB 225 Indiana 811/ Dig Law-purpose may be addressed by IURC policy, and HB 1163 Dividing Land is dead.

Austin Yake with the Education Committee reported that the PS Review is coming up. Luke Jahn gave a report for the Scholarship committee stating that forms are available and they will be due April 3rd. There was also a board discussion about having interviews at the schools or at the office. The board consensus was to leave the interview locations up to the committee.

Rich Hudson reporting for the By-Laws Committee stated that e-voting participation could always improve. ISPLS saved money as only 22 ballots were mailed out (by request or for members without e-mail), and 6 of the ballots were returned. Dennis Grumpp, Chair of the Finance and Planning Committee, is planning a meeting of that group immediately after the board meeting. Frank Walsko, Chair of the Young Professionals Committee, has received information from NSPS. The Facilities Advisory Committee (and with board direction by e-mail), are concentrating on the Castleton Park building 10, unit 103. After discussion a motion was made by Jim Tibbett and seconded by Rich Hudson to make a counteroffer per Jason's e-mail. After later discussion, a motion to rescind that motion was made by Jim Tibbett and seconded by Rich Hudson, both motions passed by voice vote. A motion to discontinue the telephone line service for the fax machine was made by Jim Tibbett and seconded by Todd Bauer which passed by voice vote.

Eric Banschbach, IPLS Foundation Liaison, gave a verbal report. Perry Cloyd is the new president; Dan Kovert will be the new liaison. At the February meeting they discussed widening the scholarship and grant availability. There have been discussions with the Indiana Historical Society about reenacting and travel related to the 2016 Indiana Bicentennial, fundraising and partnerships, display information, memoranda of understanding with chapters and the raffle.

Chapter Reports: The Northwest Chapter met at Crown Brewery, and will have a baseball outing June 2nd, and a golf outing July 10th. The Wabash Valley Chapter announced their new officers, Marc Cady is the new President, Randy Miller is Vice President, Barry Bunnell is Treasurer, and Don Wimmer is secretary. Trig Star is in process and they are planning a scholarship golf outing. The Central Indiana Chapter will have their next meeting March 19th, and the Southwest Chapter's next meeting will be held at Vincennes University on March 19th for a cookout. The Northwest Chapter is working on the 2016 Convention planning. Jim Swift presented a one hour Stone Hunter continuing education program on February 16th. Initial Point Chapter has a joint meeting with the KAPS chapter in the near future. The Greenville Treaty Chapter meeting is March 26th in Osgood, and the Hoosier Hill Chapter met on February 24th and had elected new officers.

Unfinished Business: There was a discussion about the destruction of records from the Sullivan County Surveyor's office, and a discussion about the response from the Job Creation Committee.

New Business: The Board of Directors meeting was temporarily recessed to hold an executive session concerning the replacement of the current Executive Director, Jason Coyle.

Chuck Coyle presented a written report on the PLSO convention, and Jim Tibbett noted that the Illinois conference was offering continuing education credits for multiple states.

The meeting adjourned at 3:24pm.

April 18, 2015

The ISPLS Board of Directors met on Saturday, April 18, 2015 at ISPLS Headquarters, Indianapolis, Indiana. President Bernie Guerrettaz called the meeting to order at 9:02am EST. All board members were in attendance with the exception of Todd Bauer. Others in attendance were Ed Sweetland who joined the meeting at 10:04am.

Don Williams read the ISPLS Mission Statement and Eric Banschbach read the Vision Statement. Printed copies of the agenda were provided. The members of the board of directors were asked to consider task assignments currently performed by the Executive Director. The agenda was accepted by consent. The minutes from the March 14, 2015 meeting were reviewed, and they were accepted by consent.

The Treasurer's Reports were reviewed and narrated by Dennis Grumpp. The written financial reports dated March 31, 2015 were presented and ISPLS assets totaled \$389,912.83. Dennis also covered the income and expense report, investment report, budget, and the profit and loss budget versus actuals report, and the 2014/2015 budget spreadsheet. A motion to accept/receive the financial reports was made by Perry Cloyd and seconded by Jim Tibbett. The motion passed by a voice vote.

Executive Director Coyle gave the Board his written Executive Director's report. The report included the following highlights: The membership roster will be updated by the end of the month. Jason will plan on working on the Business entity reports that need to be filed for the chapters. The House has concurred with changes made in the Senate to House Bill 1050, Statute of Repose, and it has been sent on to the Governor's Office. The ISPLS lobbyist, Mike O'Brien, will send a letter to the Governor supporting this. The PS Exam review was held on March 21st. Seven individuals paid for

(Continued on page 10)

(Continued from page 9)

the course and six attended. The Winter Hoosier Surveyor has gone out. Jason has been organizing and packing the library materials and had suggestions for items to be removed from the collection. There were no board motions.

Doug Herendeen and Jason Coyle discussed the 2015 Convention Report and Update. Revenues were up and expenses were down at this year's conference.

ISPLS Committee reports: Ron Wharry and Brent Friend as part of the Membership Committee/New Member reviews reported that upon petition, a motion to grant life membership to David B.H. Best was made by Brent Friend and seconded by Perry Cloyd. The motion passed by voice vote.

The Board of Registration Liaison, Jason Coyle, will continue attending meetings if possible, and Perry Cloyd will help as needed. The next meeting is scheduled for April 17, and will include two disciplinary hearings. The County Surveyors Liaison, Dave Gaston, discussed that he is waiting to receive more information from the County Surveyor's Association regarding Sullivan County before deciding how to proceed with that matter. The NSPS Director, Tony Gregory, attended the Spring NSPS meeting. Luke Jahn with the Scholarship Committee noted that the Purdue interviews were held Friday, April 17, and the Vincennes interviews will be held the following Friday. Dennis Grumpp with Finance and Planning reported that the preliminary budget has been posted to Dropbox. The Past President's Council is working on an update of activities. Don West and Jason Coyle reporting from the Facilities Advisory Committee discussed that a lease cancellation notice has been sent informing Castleton Park that ISPLS will not be moving forward with space there at this time.

Eric Banschbach, IPLS Foundation Liaison, gave a verbal report that the Foundation will meet next Monday.

Rich Hudson with the Northwest Chapter reported that the baseball outing will be June 12, and the golf outing will be July 10.

Unfinished Business: A letter had been sent out to the Job Creation Committee.

The Board discussed the following items under new business: The announcement that ISPLS is seeking an Executive Director has been sent to or posted with: ISAE (Indiana Society of Association Executives), the Kelley School of Business, Purdue, Ball State, the Hoosier Surveyor and the ISPLS membership by email. Leslie Murphy, president of Raybourn Group International, spoke to the executive committee last Saturday about what services an association management company could offer. The discussion of that meeting was also reviewed. There was discussion about the merits of holding a goal-setting meeting to determine long-range goals for ISPLS.

Banning Engineering has submitted a letter of interest in providing association management services to ISPLS. A motion to ask Banning to submit a proposal for association management services was made by Perry Cloyd and seconded by Brent Friend. The motion passed by voice vote. A motion to have Stephen Ingram facilitate a Board of Directors goal-setting session was made by Jim Tibbett and seconded by Perry Cloyd. The motion passed by voice vote. A motion to approve the transfer/disposal of library items identified by Jason Coyle was made by Bryan Catlin and seconded by Eric Banschbach. The motion passed by voice vote. Dennis Grumpp will investigate bonding.

A motion to require two signatures on checks, the Treasurer and another account signatory, to be effective July 1, 2015, was made by Dennis Grumpp and seconded by Jim Tibbett. The motion passed by voice vote. A motion to have the Executive Committee (President Bernie Guerrettaz, Vice-President Perry Cloyd, Treasurer Dennis Grumpp, Secretary Bryan Catlin, Past-President Don West and President-Elect Rich Hudson) and Executive Director Jason Coyle be named as signatories for the checking account was made by Perry Cloyd and seconded by Dennis Grumpp. The motion passed by voice vote with Jim Tibbett voting no. There was a general discussion about ISPLS obtaining a post office box.

Announcements: The next meeting will be held May 16th at the ISPLS headquarters.

BOARD OF REGISTRATION FOR LAND SURVEYORS MEETING HIGHLIGHTS - APRIL 17, 2015

By Robert "Jason" Coyle, PS, Executive Director

The Board of Registration for Professional Surveyors (Board) met Friday, April 17, 2015, at 9:00 am EDT. The meeting was held at Indiana Government Center South, 402 W. Washington Street, Room W064, Indianapolis, Indiana. After a few additions under discussion item, a motion was made by Doug Lechner and seconded by Ross Holloway to adopt the amended agenda. The motion passed with a voice vote. A motion was made by Gary Kent and seconded by John Stephens to adopt the minutes from the January 30, 2015 meeting. The motion passed with a voice vote.

At 9:04 am, the Board held an Administrative Hearing concerning Brett R. Miller, LS20300059, regarding an Administrative Complaint, Cause No. SBRLS 14-08. Board Member, Gary Kent, recused himself from the hearing since he was involved with the Settlement Conference. A complaint had been filed against Mr. Miller for using his Professional Surveyors License to stamp and certify work outside of the practice of surveying – namely preparing design plans for projects outside of a subdivision. Prior to the complaint, Mr. Miller felt he was acting in accordance with the law and was under the impression that he could design sewers as long as they were not under pressure. Mr. Miller has since changed his business practice and hired a Professional Engineer. Another key discussion point during the hearing was the fact that other Professional Surveyors and/or Professional Engineers did not try to educate or mentor Mr. Miller prior to filing a complaint against him. At the conclusion of the hearing, Ross Holloway made a motion to accept the terms of the Settlement. The motion was seconded by Doug Lechner and passed with a voice vote. The Board further stressed that Professional Surveyors should attempt to educate / mentor fellow Professional Surveyors not following the law and/or rules before filing a complaint against them.

(Continued from page 12)

At 9:25 am, the Board held an Administrative Hearing concerning Jerry D. Wiggins, LS8088002, regarding an Administrative Complaint, Cause No. SBRLS 14-09. Natalie Stidd, Deputy Attorney General, provided the following facts pertaining to the hearing. Mr. Wiggins has had a suspended Professional Surveyors license since August 29, 2006. Mr. Wiggins has also not paid the \$6,000 civil penalty ordered by the Board on August 29, 2006. In January 2010, Mr. Wiggins had submitted two invoices to Philip and Erica Jackson for works related to a replat of Lots 745 and 746 of Foxcliff Estates South Section 35, Morgan County, Indiana. The description for the invoices included "Preparing planning exhibits, acquire field survey data, set monuments, and prepare final plat for vacation and replat of Lots 745-746" The replat of Lots 745 and 746 of Foxcliff Estates South Section 35 was signed and certified the Carlos Pedrazza, LS80040274, the registered agent and incorporator of Seacorp II Incorporated. A statement on the replat noted that the instrument had been prepared by Seacorp II, but gave the phone number for Mr. Wiggins. Mr. Wiggins was questioned by Natalie Stidd, Deputy Attorney General, and the Board Members as to the facts presented. Upon the conclusion of the Hearing, a motion was made by Ross Holloway and seconded by John Stephens to revoke Mr. Wiggins Professional Surveyors license. The motion passed with a voice vote.

Complete License Litigation documents can be found at the following website: <http://www.in.gov/ai/appfiles/pla-litigation/>

The Board heard a report from Natalie Stidd, Deputy Attorney General, at 10:38 am. Natalie Stidd supplied the Board with a report of Consumer Complaints and Litigation Cases. Below is a summation of that report:

Consumer Complaints			
Year	Consumer Complaints at Beginning of Year	Consumer Complaints Opened During Year	Consumer Complaints Closed During Year
2011	33	4	15
2012	22	13	25
2013	10	16	16
2014	10	21	6
2015	25	0	0
Complaints Currently Open as of January 29, 2015			25
Average Age of Open Complaints: 7.3 months			
Date of Oldest Open Complaints: July 23, 2013			

Litigation Cases

After a short break, the Board continued with an Administrative Hearing in the Matter of the Application for Neal A. Ballah at 10:58 am EDT. The hearing was in regards to a Petition of Review for Denial of Application, Cause Number SBRLS 15-02. The Board had reviewed Mr. Ballah's application for Professional Surveyor and denied it based upon his work experience. Mr. Ballah had the required number of years of experience, but failed to properly convey on his application that he had obtained at least 60% of his land surveying experience with those activities listed within Indiana Code 25-21.5-1-7(b)(4) through IC 25-21.5-1-7(b)(7). Mr. Ballah presented addition information and evidence concerning his work experience during the hearing. Upon conclusion of the hearing and further Board discussion, a motion was made by Gary Kent and seconded by Mike Deboy to approve Mr. Ballah's application and allow him to sit for the exam. The motion passed with a voice vote.

At 11:08, the Board held an Administrative Hearing in the Matter of the Application for John A. Campbell at 10:58 am EDT. The hearing was in regards to a Petition of Review for Denial of Application, Cause Number SBRLS 15-04. The Board had reviewed Mr. Campbell's application for Professional Surveyor by Comity and denied it based upon his obtained education. Mr. Campbell explained that he was first licensed as a "Property Line Surveyor" in the State of Maryland in 1984. In 1996, Mr. Campbell was licensed as a Professional Surveyor in Maryland. The State of Maryland has two license types: 1) a Property Line Surveyor; and 2) a Professional Surveyor. Mr. Campbell noted that in Maryland a Property Line Surveyor can perform all the same tasks as a Professional Surveyor with the exception of road design, storm water design, and storm water management. After some discussion, it was suggested that the Board could use the date of Mr. Campbell's first license, Property Line Surveyor license in 1984, for determining what requirements had to be met. Upon conclusion of the hearing, a motion was made by Gary Kent and seconded by John Stephens to approve Mr. Campbell's application based upon the abovementioned suggestion and allow him to sit for the exam. The motion passed with a voice vote.

The Administrative Hearing in the Matter of the Application for Michael P. Cochran, Cause Number SBRLS 15-01, was continued until the next Board meeting on July 24, 2015.

The Board continued with an Administrative Hearing in the Matter of the Application for Patrick Finn. The hearing was in regards to a Petition of Review for Denial of Application, Cause Number SBRLS 15-03. The Board had reviewed Mr. Finn's application for Professional Surveyor by Comity and denied it based upon his obtained education. Mr. Finn explained his case and noted that his first Professional Surveyor's license was received in the Spring of 1988 in the State of Ohio. The State of Indiana first required the education component for licensure in the Summer of 1988. Thence, Mr. Finn fell under Indiana requirements which required for no education. Upon conclusion of the hearing and further Board discussion, a motion was made by Gary Kent and seconded by Rich Hudson to approve Mr. Finn's application and allow him to sit for the exam. The motion passed with a voice vote.

The Board next had a discussion with Richard Vermillion, PS, Knox County Surveyor. Mr. Vermillion expressed a concern that County Surveyor's Offices across the State had a difficult time of hiring qualified individuals. This is due to the fact that the individual would have a tough time gaining the boundary experience needed to be able to sit for the Professional Surveyors exam.

(Continued from page 14)

The Board continued with Probationary Reports for J. Bernard Feeney, Michael Sadlon, Ronald Morrison, and Stephen Williams. There was substantially nothing to report concerning these individuals since they had not prepared any surveys.

The Board discussed the applications that were reviewed and reported as to whether they were approved or denied. The following applications were approved:

1. Mark H. Kamin – Professional Surveyor - Approved
2. Byron D. Howell – Professional Surveyor by Comity – Tabled – Requesting more detail on work experience.

The Board then turned their attention to the discussion items on the agenda. The Board approved to send Amy Hall, Board Director, and Doug Lechner to represent the Board of Registration for Professional Surveyors at the NCEES National Meeting. The second round of continuing education audits was conducted on 2 licensed professional surveyors. One still needs to submit and the other was found not in compliance. Additionally the Board had a brief discussion concerning Carlos Pedrazza, LS80040274, based upon testimony and facts presented earlier in the meeting. Ross Holloway made a motion to have the Indiana Professional Licensing Agency file a complaint against Mr. Pedrazza. The motion was seconded by Doug Lechner and passed with a voice vote.

The next scheduled meeting is Friday, July 24, 2015 at Indiana Government Center South, 402 W. Washington Street, Room W064, Indianapolis, Indiana 46204.

INDIANA PROFESSIONAL LAND SURVEYORS FOUNDATION, INC.

Report from Perry Cloyd to the ISPLS Membership - June 1, 2015

Since the March 24, 2015 Report, the IPLS Foundation BOD has met on two occasions [April 20th and May 11th] and there are several items that the Board has taken up:

- 1) Scholarships:** The foundation has finalized the application for an “Open” Scholarship to any student that is enrolled or intending to enroll in an approved surveying or survey related program. This would be open to high school students or existing surveying students that will be enrolled for classes in the fall of 2016. The recipient must be an Indiana resident, but not necessarily attending an Indiana school. The amount has not yet been determined, but we are working on the amount, interview process and payment schedule to put the finishing touches on the project.

There has been no change related to the applications for the Peggy Archer Award (Vincennes), the John G. McEntyre Award (Purdue), as well as the P.U.-Calumet Scholarships. April 1st was the deadline for application; We understand that there are approximately 50 surveying students statewide that can apply for these scholarships, and the process is moving forward.

- 2) Financial Partnering and Fund Raising Ideas:** The foundation board has researched opportunities such as the Flower and Patio Show, Indianapolis Home Show, Honor Flight and Wish for our Heroes as a way to make the services of the surveyor better known to the general public. Please “stand by” as we continue to solicit such opportunities.
- 3) Grants:** The deadline for Grant Applications was also April 1st. We have reviewed grants for the Indiana Map to support operations as well as a grant from Parke County to purchase a large format scanner. I am happy to say the foundation was able to support both requests. We have committed to supporting the Indiana Map for the next 3 years and funded 40% of the scanner project. In addition, we have discussed suggested grants related to the Indiana Surveyor’s Historical Society, a section corner software program, a standard contract book and a court case book. While none of these have been officially submitted, the foundation routinely discusses issues such as these to gain understanding of potential opportunities. Grant applications can be obtained on the ISPLS Website under the Foundation tab.
- 4) The IPLSF Raffle:** The Foundation provided a survey to determine if the membership preferred the individual “bucket” format used at the last conference or the “all in one” format that was previously used. While no final decision has been made at this time, the membership has indicated it prefers to be in the running for every prize and wants the “all in one” format to return. The foundation is already considering prizes for next year... so if you have some special ideas please pass them along to a Foundation Board member.
- 5) IPLSF / Chapter MOU’s:** The Foundation now has the Foundation/Chapter MOU agreement in a form that we are able to present this program to the Chapters for their consideration. If your chapter would like to have a MOU presentation made just let an IPLSF Board member know.
- 6) Budget:** The foundation will finalize the 2015/2016 budget at the June meeting.

Remember... This is your Foundation... Our task is serving the ISPLS Membership. Let us know what we can do to provide even more! Through scholarships, grants and partnering we have now allocated the funds available under the 2014/2015 budget.

It's more than just a box on a pole... It's the whole nine yards that matters.

It's a team effort of hardware, software, network, and support that gets the job done. Whether it's easy access firmware updates, user-friendly software, reliable RTK network, or a local helping hand, we have your back when the going gets tough. Can you count on your instrument manufacturer for the whole nine yards?

LEGAL SURVEYS

Bryan F. Catlin, PS

The goal of this column is to provide brief summaries of recent Indiana Court of Appeals and Supreme Court cases involving topics related to surveying practice, certainly not to provide legal advice. Information is gathered from the courts website at www.in.gov/judiciary. Comments or suggestions for future columns are welcome by email to: Bryan.Catlin@indy.gov.

Randy Corn vs. Junior P. Corn, Bonnie C. Corn and Benjamin Corn, Indiana Court of Appeals Case No. 85A02-1405-PL-323, January 12, 2015

Here the Wabash Circuit Court was asked to determine ownership and other rights concerning a thirty foot lane which had been established when an eighty acre parcel was split up in 1897 or before. Briefly, through several transactions, both ownership and rights for ingress and egress were transferred to the owner of the northern 53 acre parcel. Since 1977 that owner has been Randy Corn. Junior Corn bought the balance of the acreage which is split by the lane in 1984. The southern line of the southern tract runs along a county road. Junior and Randy used the lane to gain access to the road, apparently peacefully. Eventually Junior sold a portion of the property along the county road to his son Benjamin who built a house and used the lane to gain access to his driveway. During construction on the home in 1999, Randy objected to Junior's use of the lane. In 2011, the Corns filed a complaint to quiet title against Randy. They alleged that they held fee simple title by an 1899 deed or alternatively, they held title by adverse possession.

After counterclaims, a bench trial was held in which the court was apparently concerned about the differing language in the deeds from the 1890's and eventually decided that Randy Corn and the Corns were tenants in common of the lane. Randy Corn filed a motion to correct error which was denied and this appeal ensued.

On appeal, the court found that the plain language of the earlier transactions transferred fee title as well as ingress-egress rights to Randy Corn's predecessor in title. The appeals court also denied an argument that clauses contradict each other in the prior deeds. As to the claim of adverse possession, the court found that it failed due to the issue of control since Randy used the lane to get to his house from the county road daily. The case was remanded back to the trial court with a finding that Randy Corn owned fee simple title but that the trial court must now consider whether the Corns have established a prescriptive easement over some portion of the lane as well as Randy's request for permanent injunctive relief. Both are issues the trial court did not address once it found Randy and Junior as tenants in common.

LBLHA, LLC, Margaret L. West and Don H. Gunderson vs. Town of Long Beach, Indiana, Alliance for the Great Lakes and Save the Dunes, Long Beach Community Alliance, Patrick Cannon, Roger Gansauer, David Oei, Bernard Rabinowitz, and Joan Smith, Indiana Court of Appeals Case No. 46A05-1404-PL-146 March 26, 2015

This case from the LaPorte Circuit Court may eventually define where the boundary between private and public ownership lies along the Lake Michigan shoreline. In 2012, relying on Indiana Department of Natural Resources information, Long Beach enacted a resolution to not enforce private property rights below the ordinary high water (OHW) mark. A group of lakefront property owners sued the town. The town argued that the State of Indiana should have been the party any lawsuit was directed at as it is the limit of state ownership that is in question. Eventually summary judgment was granted to the town on all counts and this appeal was made.

The appeals court reversed those rulings and held that the State of Indiana or appropriate state officials as individuals in their official capacity should be added as a party or parties so the issues could be decided. In addition, one of the counts was decided after the appeals court had authority by court rules.

(Continued on page 19)

(Continued from page 18)

This case has the potential to determine if the limit of public ownership in Indiana is the OHW line, the undisturbed lake edge, the location the GLO survey found, or something else entirely.

County of Lake and the Lake County Plan Commission vs. Alan J. Pahl and Roderick Pahl, Indiana Court of Appeals Case No. 45A03-1406-PL-214, March 31, 2015

The Pahls purchased Lot 5 in Westerhoff Acres, containing 10.08 acres in unincorporated Lake County, in 2006. At that time the land had been used for growing crops. The subdivision had been rezoned from A-1 (agriculture) to R-1 (single family residential) in 1995 to allow development of the subdivision under the Comprehensive Plan and Zoning Ordinance. The Realtor's listing indicated the property was zoned "Ag-Res" and the Pahls checked the Assessor's website which indicated the "Parcel Type" as "101 AG – Cash Grain/General Farm", but the Pahls did not check the zoning classification at the Plan Commission. The Pahls built a home and around May 2008 brought alpacas onto the property. Eventually there were approximately 28 alpacas, 2 riding horses, 4 miniature horses, two dozen chickens, about a dozen ducks and 4 pygmy goats, along with temporary shelters, fencing and wheelless semi-trailers used for storage on the lot. In addition the Pahls operated a business selling ducklings, using the goats for recreational and commercial uses and raising alpacas for fiber and manure.

In October 2009 the Plan Commission sent the Pahls a letter informing them they were in violation of the zoning ordinance. The Pahls later filed for two petitions for variance which were withdrawn and filed a permit for a barn which was denied. On August 28, 2012 Lake County filed a complaint for injunctive relief against the Pahls. At a bench trial before the Lake Superior Court one of the arguments was that the use was an agricultural nonconforming use under Indiana Code 36-7-4-616. Eventually the trial court found for the Pahls and this appeal followed.

The appeals court noted why the restrictions of the zoning ordinance still apply since even a nonconforming use must still be in compliance with the requirements for a conforming agricultural use which the Pahls were not. Therefore the trial court decision was reversed and the case was remanded with instructions to grant Lake County's petition.

Berthal O. Williams and Patricia Williams vs. The Indiana Rail Road Company, Indiana Court of Appeals Case No. 77A04-1311-CC-580, March 31, 2015

Here the Sullivan Circuit Court was asked to decide if an indenture from 1901 bound the current owner of the railroad to maintain a dam which was originally constructed to supply water for steam locomotives. In 1899 a perpetual right-of-way was granted to the Southern Indiana Railway Company (Southern) and in 1901 Southern entered into an indenture which gave it the "right to construct and maintain" a dam in their right-of-way and to use the water it impounded while agreeing that the water would be not less than fourteen feet or more than twenty feet deep at its deepest point. The property owners also had rights to fish, use water for farm purposes, harvest ice, boat, picnic and hold public gatherings at the pond. The indenture was recorded in 1945. In May 2006 the Indiana Rail Road (IRR) acquired the railroad right-of-way but did not use water from the pond. In 2008 and 2010 Berthal sent letters to IRR complaining that there was a sinkhole near the dam which IRR was now responsible for maintaining. On June 4, 2012 the Williamses filed a complaint maintaining that IRR refused to maintain the dam and asking for a judgment that IRR must repair the dam as well as damages to compensate them for their loss.

IRR filed a motion for summary judgment arguing the covenant did not run with the land, that even if it did, the terms did not impose a duty to maintain a specified depth and even if it did, the breach occurred before the Williamses purchased the land in 2005, causing the covenant to cease running with the land. After a hearing the trial court granted IRR's motion for summary judgment and the Williamses appealed.

...For the Total Project

(Continued from page 19)

The appeals court in part determined that the covenant does run with the land and that the argument “that the covenant ceased running with the land upon a possible breach prior to the Williamses’ purchase-and its supporting citations do not hold water”. (Evidently Judge Pyle has a sense of humor.)

This case was reversed and remanded for further proceedings by a 2-1 margin. Judge Mathias dissented, noting that the railroad had a right to construct and maintain a dam, but not a duty or obligation to do so.

The court’s website includes many “Memorandum Decisions” which are not published in West’s Northeastern Reporter and, in general, are not to be used as precedent or cited before any court. However, they still show a court’s reasoning and may be of interest. This column looks at some such decisions related to surveying.

Timothy McNamara, Tamara Goodfellow, and Teresa Melton vs. Zollman Farms, Inc., Testamentary Trust of Jack D. Roller, and Thomas Michael Carr, Indiana Court of Appeals Case No. 36A05-1404-PL-180, January 13, 2015 - MEMORANDUM DECISION - not regarded as precedent

This is a case from the Jackson Superior Court where McNamara, Goodfellow and Melton own a landlocked 40 acre parcel. They went to court requesting that a path from a county road to their property be declared a county road since it had been used, mainly as a walking path, for over twenty years before the relevant statute changed in 1988. The trial court agreed that the path had been used for over twenty years before 1988 but concluded that the existence of a public road by use had not been established. On appeal McNamara et al. agreed with the findings of the trial court but not its conclusion. The appeals court agreed, reversed the trial court and remanded the case for further proceedings.

Celebration Worship Center, Inc., vs. Patrick Tucker and Carolyn P. Tucker a/k/a Patty Tucker, Indiana Court of Appeals Case No. 22A01-1405-PL-229, January 14, 2015 - MEMORANDUM DECISION - not regarded as precedent

Here Celebration Worship Center (CWC), the owner of lot 3 in Plat 349 and the Tuckers, the owners of lot 4, were having a land dispute. CWC filed a complaint June 30, 2011 in the Floyd Circuit Court seeking a judgment against the Tuckers who argued they had either acquired ownership by adverse possession or a prescriptive easement. The Tuckers claimed their predecessor-in-interest had used the land in question for primary access to an old garage for over twenty years before the Tuckers tore down the old garage in 2003 or 2004. They then built a new garage which did not need access from the land in question as it had direct access from a public road, and the Tuckers no longer used the land for access to the garage. The trial court granted summary judgment in favor of the Tuckers on both the adverse possession and prescriptive easement claims.

CWC appealed, contending the trial court shouldn’t have granted summary judgment. The appeals court noted that summary judgment is appropriate when there are no issues of material fact and the moving party is entitled to summary judgment as a matter of law. Here, citing *Fraleley v. Minger*, the court observed that the Tuckers had only paid taxes on lot four so there is an issue of fact that does not meet the requirements of *Fraleley*. In addition the court specified that abandonment can prevent an easement from ripening and the Tuckers had voluntarily abandoned using the disputed land when the new garage was built in 2003 or 2004. The court cited case law on abandonment having an “element of intent as well as mere nonuse”. The appeals court found that CWC, not the Tuckers, was entitled to summary judgment on both claims, reversed the judgment and remanded the case to the trial court with instructions to enter summary judgment in favor of CWC on both claims.

(Continued on page 22)

(Continued from page 21)

John D. Jenkins Revocable Living Trust, John D. Jenkins, Trustee, vs. Peru Utility Service Board, City of Peru and Peru Common Council, Indiana Court of Appeals Case No. 52A01-1409-PL-387, February 13, 2015 - MEMORANDUM DECISION - not regarded as precedent

This is the second part of a case that was split into two parts by the Miami Superior Court. This case concerns an alleged trespass by Peru Utilities. Here representatives of Hilltop Farms L.P. and Hilltop Farms Phase Two (Hilltop), a housing development, negotiated with a representative of the trust (RLT) about construction of a sewer line Hilltop would construct. Both Hilltop and RLT understood the sewer and easement would be turned over to Peru Utilities and Peru Utilities were “heavily involved in the planning process”. Construction of the sewer began in late 2003 and was completed in January 2004. In April 2004 RLT granted an easement to Hilltop. In May 2004 Hilltop dedicated platted easements and sanitary infrastructure to Peru Utilities. In September 2004 Hilltop assigned the easement to Peru Utilities which accepted and recorded the assignment. The easement provided that RLT may grow crops and farm over the easement. RLT claimed Peru Utilities committed trespass by altering surface drainage. At a bench trial on May 22, 2014, RLT’s trespass claim focused on the presence of manholes in the field, specifically one manhole three feet above grade. The trial court found for Peru Utilities.

On appeal, RLT again argued that Peru Utilities failing to remove a manhole was a trespass. The court noted that for trespass a defendant would have to enter the land without right which RLT is not arguing. RLT does refer to the Restatement of Torts which provides liability for trespass if you fail to remove from the land a thing you are under a duty to remove. RLT also argued that the manhole should not be above ground since the easement allowed crops to be grown over the top of the easement. But the easement document does not require manholes to be buried and Jenkins had testified that he did not allow dirt to be brought in to level the ground around manholes and did not want dirt added or the sewer system changed. RLT also argued that IDEM requires plans to confirm that at least three feet of dirt be placed over a sanitary sewer but didn’t convince the court this applied to manholes. The trial court decision was affirmed.

Shelley Bradford vs. Mike Lazo and Angela Lazo, Indiana Court of Appeals Case No. 45A03-1404-MF-147, March 12, 2015 - MEMORANDUM DECISION - not regarded as precedent

This case concerns denial of access to shared common areas at a condominium. However, the Lake Superior Court dismissed the case and the appeals court agreed since it is arguing the same facts as a prior case between the parties which was dismissed with prejudice.

Jack L. Yant III vs. Barry L. Payne, Indiana Court of Appeals Case No. 32A04-1408-PL-385, March 27, 2015 - MEMORANDUM DECISION - not regarded as precedent

Payne bought 10.07 acres in 1963 and built a fence along the northern property line per a survey. Soon after, Payne’s grandparents bought 2.00 acres north of the fence and built a house. A portion of the fence was removed for a common driveway. In 1976, Jack L. Yant II purchased the 2.00 acre property. A second survey in 1982 confirmed the same boundary between the properties. Between 1983 and 1986, Payne built a barn near the northern boundary of his property near the fence. Payne has paid all assessments for the barn every year since it was built. In 2011, Payne decided to sell his property and had another survey completed. This survey showed the original boundary marked by the fence was incorrect and that the fence and a portion of the barn are on Yant’s real estate. The disputed property totals 0.02 acres. In October 2013, Yant deeded his property to his son, Jack III. On November 13, 2013, Payne filed a complaint to quiet title on the disputed 0.02 acres by adverse possession. Payne filed a motion for summary judgment which was denied and Payne requested a hearing which was granted. The hearing by the Hendricks Superior Court took place on July 30, 2014, and on August 1, 2014 the trial court granted Payne’s motion for summary judgment. Yant appealed.

(Continued on page 23)

(Continued from page 22)

Yant argued that Payne did not satisfy the elements of control, notice and payment of taxes. Here the appeals court relied on *Fraley v. Minger* to show that the fence and payment of taxes for the barn in the disputed area satisfied all requirements for adverse possession and the decision of the trial court was affirmed.

David R. Ulrich and Marcia K. Ulrich vs. Brad R. Minear and Miranda G. Minear, Indiana Court of Appeals Case No. 92A05-1408-PL-363, March 30, 2015 - MEMORANDUM DECISION - not regarded as precedent

The Ulrichs own a house in North Park Subdivision in Columbia City subject to restrictive covenants. One of the covenants is "Said real estate shall be used for residential purposes only and shall not be used for any commercial, mercantile or manufacturing purpose". In November 2013, the Minears purchased a house in the subdivision and placed a sign reading "Future home of Minear Real Estate". The Ulrichs filed a complaint in the Whitley Superior Court to enforce the covenant mentioned. The Minears answered claiming estoppel as several other commercial uses exist in the subdivision. The complaint was denied and the Ulrichs appealed.

The appeals court agreed with the trial court and also clarified why a prior complaint by the prior owners of the lot in question against the Ulrichs to amend and modify the same covenant did not amount to res judicata (essentially litigating something twice). In this case, because the prior action was to amend or modify the covenant, while this action was to enforce the covenant. In addition, since the Ulrichs did not offer evidence for why the prior complaint was dismissed, the court cannot tell if anything was adjudicated in that case. The trial court decision was affirmed.

In case you have ever wondered how the case numbers are assigned, full information can be found in the Courts Administrative Rule 8 available at: <http://www.in.gov/judiciary/rules/admin/index.html>. Taking as an example the first case summarized in this column:

85A02-1405-PL-323, January 12, 2015.

The first group starts with two digits to identify the county the case is from or a few special codes. The third digit is the court identifier, in this case the Indiana Court of Appeals. The last two digits are a geographic district or more special codes also indicating where the case originated.

The second group is the two digit year and two digit month the case was filed.

The third group is two digits indicating the case type, here Civil Plenary.

The fourth group is a sequential number beginning with 1 each year for each case classification.

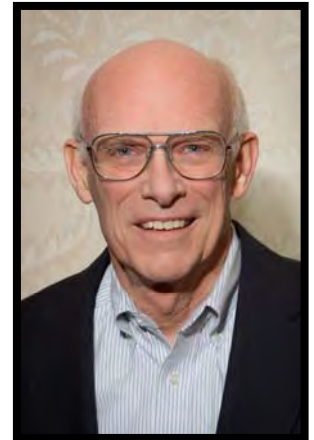

The date is not a part of the case number, but is the date the opinion was filed with the Clerk of the Courts.

Bryan F. Catlin, PS has been registered as a Land Surveyor in Indiana since 1991. He holds B.S. Land Surveying Engineering and M.S. Engineering (geodesy) degrees from Purdue University.

INDIANA-MICHIGAN STATE LINE COMMISSION - MEETING HIGHLIGHTS

By Mike Davis

Minutes Provided by Office of Land Survey and Remonumentation,
Department of Licensing and Regulatory Affairs, State of Michigan
January 13, 2015

The Indiana-Michigan Boundary Line Commission met Tuesday, Jan. 13, in the County Commissioners Meeting Room on the seventh floor of the County City Building, 227 W. Jefferson Blvd., South Bend, Ind. Commission members present were John McNamara, chairman, Indiana; David Mostrom, vice-chairman, Michigan; Anthony Hendricks, Rex Pranger and Michael Ruff, Indiana; and John Kamer and Chris Marbach, Michigan. Those not present were Brad Cramer, Indiana; and Michael Lodzinski and Edward Reed, Michigan. The Jan. 13 meeting agenda and the minutes from the Nov. 12 meeting were approved.

Commissioners reviewed and discussed informational materials on the Boundary Line Retracement and Remonumentation project to be displayed at annual conferences of the Indiana Society of Professional Land Surveyors and the Michigan Society of Professional Surveyors. The display included poster boards highlighting work completed by surveyors before the commission was formed, as well as new material produced by Commissioner Anthony Hendricks. Chairman John McNamara and Hendricks said they planned to exhibit the items at the Indiana meeting Jan. 14-16 and asked if the materials could be transported to the Michigan conference for display from Feb. 17-20. Vice-chairman David Mostrom said he would see that the items were taken to the Michigan event.

Chris Beland, director of the state of Michigan's Office of Land Survey and Remonumentation, said he had completed all but one of the changes to the draft request for service and estimated costs that the commission agreed upon at its Nov. 12 meeting. He said he could not remove a requirement that plats of survey be completed in compliance with 865 Indiana Administrative Code 1-12-13, a section that deals with retracement and original survey plats. He said the stipulation needed to stay in the document as a deliverable associated with the requirement that the commission administer a survey of the line.

Beland also said he would work with the procurement staff on the process for posting the request for service and costs, but he said the project would not be awarded unless funding existed to complete it. He also said that the commission may need to start considering alternate methods if it wanted to complete the project.

He asked if commissioners believed county perpetuation funds from adjoining counties in both states could be used to complete the work at the county level. He said it would take longer to do it that way, but it would remove concerns about the overall cost. He added that if even if this was done — and if the commission continued its work — it would need to look at existing laws and most likely amend them.

Following a discussion, Commissioner Chris Marbach asked if forms used in the request for service and costs would contain blanks where costs could be placed. Beland said he would draft a form to be part of the posted information that would identify how costs should be broken down and submitted.

Commissioner Rex Pranger asked how notice of the request would be distributed when the posting took place, and Beland said vendors registered with Indiana and Michigan should receive notice of the posting through those states' systems. He also said he would send notice to surveying societies in both states.

Since McNamara said he could not attend the Feb. 10 meeting, commissioners decided to move its location from South Bend, the county seat of Indiana's St. Joseph County, to Centreville, Mich., the county seat of Michigan's St. Joseph County. The meeting was subsequently canceled, however.

Meetings were also scheduled May 12 and Aug. 11, both in the County City Building in South Bend.

SEILER

YOUR SOURCE FOR...

Seiler Instrument offers a complete line of high precision instruments for survey, mapping, architectural, civil, mechanical and structural engineers.

We offer a wide variety of equipment, cloud based software, along with 3D scanning, training, field supplies and more. We support and service just about everything we sell with premier service and repair facilities in Kansas City, St. Louis, Indianapolis and Milwaukee.

We work with dependable and quality driven manufacturers such as:

- Trimble®
- Spectra Precision®
- Laser Technology®
- AGL®
- Nikon®
- SECO®
- Esri
- Intuicom®
- Seafloor Systems
- Optimal Ranging

Our experienced field, training, service and support staff will work with you and your organization to provide the best solutions available for your productivity and project success.

70 YEARS OF EXCELLENCE

1945-2015

NSPS Spring 2015 Meetings Report

By Tony Gregory

The NSPS Spring 2015 meetings were held at the Hilton Hotel in Arlington (Crystal City), Virginia from April 13th until April 16th, 2015. The meetings were held in conjunction with a joint conference of NSPS and MAPPS.

The Great Lakes Council met on Monday, April 13th. Discussion items included a series of motions to be brought forth to the Board of Governors/Board of Directors meeting. The motions and action items that came forth from the discussion focused on the changes in the roles and responsibilities as the Board of Governors is eliminated, and most existing Governors will become members of the Board of Directors. These items will be detailed within the section of this report relative to the Board of Directors meeting.

On Wednesday, April 15th, more than 100 members of NSPS and MAPPS participated in Capitol Hill Day (formerly Lobby Day). Collectively, the offices of more than 80 Senators, and many more Congressmen were visited. The offices of Senator Dan Coats, Senator Joe Donnelly, and Congressman Pete Visclosky (of Indiana) were visited. The focus of the visits was to seek support for: the funding of the 3D Elevation Program (3DEP); the Pipeline Safety and Community Empowerment Act; the Federal Land Asset Inventory Reform (FLAIR) Act; and legislation calling for utilization of the private sector to the maximum extent practical for geospatial activities.

A brief NSPS Membership Meeting was held early on Thursday, April 16th. The primary purpose of the meeting was to approve various revisions to the NSPS Bylaws that would allow such terms as Area Director and Board of Governors to be removed. Also, new officers were installed at the meeting.

A brief Board of Governors meeting followed, and after some minor items of business, the meeting was adjourned. With this action, the NSPS Board of Governors was formally dissolved.

The NSPS Board of Directors meeting was called to order after the adjournment of the Board of Governors meeting. Some notable items presented during the reports, and motions passed included:

- Discussions took place relative to the responsibility of each NSPS Director to be the voice of NSPS at the state affiliate level, as Area Directors no longer exist. This would include the preparation of and managing of NSPS booths at state conferences.
- NSPS Executive Director Report – Curt Sumner
 - NSPS now uses electronic voting via email.
 - ALTA/ACSM minimum standards to be revised. New version to be released in 2016. Title being changed to ALTA/NSPS standards.
- Treasurer's Report – Brief report was presented, as Bob Miller (Pennsylvania) assumed the office of NSPS Treasurer at the beginning of this meeting, replacing John Fenn (Michigan). NSPS budget is healthy. \$105,000 in the black at the time of the meeting.
- Joint Government Affairs Report – John Matonich
 - Updates provided on 3DEP program; Davis-Bacon Act; Digital Coastal Act; HUD in comment period with ALTA committee; COFPAES
 - John Matonich is stepping down from the NSPS Government Affairs Committee, after 23 years of service, 21 years as chair.
- The following motions and actions were discussed and passed:
 - Necessary replacements and appointments were made to the NSPS Foundation
 - Necessary reappointments and appointments were made to the Hydrographic Certification Board
 - A motion was passed to continue NSPS membership in COFPAES (Council on Federal Procurement of Architectural and Engineering Services), considering the organization's Reorganizational Proposal
 - A motion was passed to support the use of UAS's (Unmanned Aerial System) across the country
 - A motion was passed to explore the availability of and use of alternative media for committee meetings (i.e. web-based meeting sites)
 - A motion was passed that all BOD members be required to serve on at least one NSPS committee

248.520.2546

(Continued from page 26)

- A motion was passed to allow for the creation of a New Directors Manual
- A motion was passed requiring ExCom and Committee Follow Up on actions and decisions – to be sent quarterly to all BOD members
- A motion was passed that created a Nominating Committee Process
- A motion was passed requiring that all Directors be responsible for NSPS booth setups at state conferences
- A motion was passed that all NSPS publications be updated to remove any references to “ACSM”, as applicable
- Two Additional BOD members were named to the Executive Committee (ExCom)

The NSPS Fall 2015 meetings will be held in conjunction with the Professional Surveyors of Ohio at the Kalahari Resort in Sandusky, Ohio October 8th to 10th.

Applicant's Signature: _____ Date: _____

MEMBERSHIP CATEGORIES

PROFESSIONAL MEMBER: A Professional Member of this Corporation shall be limited to Registered Land Surveyors in good standing with the Indiana State Board of Registration for Land Surveyors. A Professional Member shall be eligible to vote, hold office and to participate fully in the affairs of the corporation.

ASSOCIATE: An Associate membership will be granted to those non-registered individuals who are actively engaged in support of the practice of land surveying. An Associate Member is entitled to vote and participate fully in the affairs of the Corporation but shall not be entitled to hold office. Associate Members shall, at such time that they become Registered Land Surveyors in good standing with the Indiana State Board of Registration for Land Surveyors, become Professional Members without further vote of the Board of Directors of this Corporation.

AFFILIATE: An Affiliate membership will be granted to those individuals who qualify under the following provisions:

- a) Anyone who is affiliated with the Land Surveying profession or
- b) Any Non-Resident who is registered and in good standing as a Land Surveyor in a state other than Indiana.

An Affiliate Member is not entitled to vote, or to hold office but will receive newsletters and be invited to participate in meetings.

STUDENT: A Student membership will be granted to those non-registered individuals who are endeavoring to make surveying their chosen career and who are enrolled as a full time student as defined by the university or school they are attending. Membership in this class shall not exceed a total of (5) years. A Student Member is not entitled to vote or hold office, but will receive newsletters and be invited to participate in meetings.

LIFE: Any person holding Professional Member status shall be eligible to petition the Board of Directors to change his membership to that of a Life Member. If the Board of Directors finds that the Professional Member so petitioning has reached the age of 65 years and has been a Professional Member (or Member before July 1, 1999) of this Corporation for at least a total of twenty (20) years, it shall grant the petition and the Professional Member will become a Life Member. If the Board of Directors finds that the Professional Member so petitioning has not fulfilled the above requirements, the Board may grant a petition if it finds that the Professional Member has retired from active practice for reasons of health and is no longer engaged in Land Surveying. Life Members shall be furnished with a Life Membership card and Certificate and such membership shall take effect upon approval by the Board of Directors. Life Members shall not be subject to payment of dues, but shall enjoy all the rights and privileges of full Professional Member status in this Corporation.
